

Accessing the Online Vive Vue Demo

Link to the online demo: <https://vivevuedemo.lutron.com>

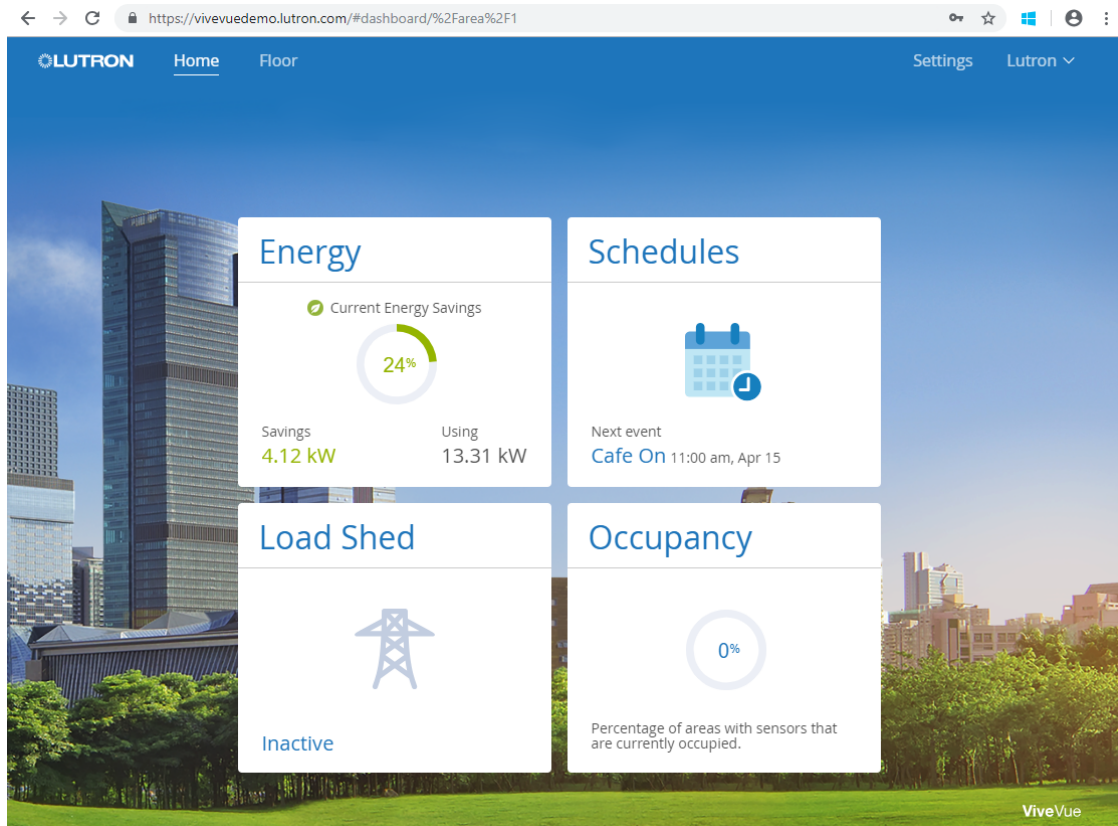

Login using your myLutron credentials. If you do not have access to this demo already (if you have access to Quantum Vue demo, then you automatically have access) e-mail mylutrondemo@lutron.com

If you have a unique myLutron password that you do not recall, follow the below instructions to set/reset your legacy myLutron password:

1. Visit Lutron.com, ensure that it does not show the user as logged in at the top of the page. If so log out using the link at the top of the page.
2. Visit <https://www.lutron.com/en-US/Layouts/MyLutron/Forms/Login.aspx?action=f>
 - a. Enter your Lutron email address
 - b. Click "Reset Password"
 - c. The browser will redirect back to Lutron.com

3. Check your email and look for a message from "No Reply" and subject "myLutron Password Reset"
 - a. Follow the link provided in the email
 - b. Fill out email
 - c. Choose a new password
 - d. Confirm the password
 - e. Click "Submit"
4. Next navigate to the online demo and login using your email address and myLutron password.

Once you are logged in, below dashboard will appear as the main page:

Now that you have access to the Vive Vue Online Demo:

Remember that multiple people may be using the demo at the same time. This means:

- a. You may see things change while you show the demo to your customers, without you doing anything.
- b. Do not make any permanent changes, such as creating/editing timeclock events, renaming area names, etc.

Utilize the first floor to demonstrate to your customers in the North America. Floor titled "EA Office" is to be used to demonstrate to customers in the UK.
